Our Vision

At 'Sloka' every child should learn to lead meaningful purpose driven lives as competitive yet humane participant in the emerging global environment who has the potential to make their world and that of others a better place to live in.

Our Mission

'Sloka' respects the freedom of a child to love life and learning. In our endeavour to churn out the best talent, we strongly advocate the freedom to stretch the wings and soar high. Where the mind is free without fear or burden of learning, then it matures into an intellectual. A dedicated team of educators at 'Sloka' assists the children to become independent and self-sufficient adults who can lead and also give others quality life.

Values of Sloka

7C - Skills that will be developed at sloka International School

Curriculum

Collaboration

Competence

Character

Critical Thinker

Communication

Creativity

In this 21st Century, Education is all about imparting skills. Banking on this, we at Sloka offer the advanced CBSE & Cambridge Curriculum which is designed to impart key skills that enables our students to be independent and to meet the needs & demands of the modern and competitive world.

Co-Curricular Activities
